

MERCURY SEEKS BOTTOM OF BULB

Bitterly Cold Weather in Atlantic
Coast States.

WORST WEATHER FOR YEARS

LOWEST POINT REACHED WAS
36 BELOW ZERO.

New York, Jan. 5.—When the government thermometer reached four below zero at 5 o'clock this morning, all local January cold records since 1875, when six below was registered, were beaten. Thermometers in various outlying districts went several degrees lower, and in the suburbs from eight to twelve degrees below zero was reached. At 9 o'clock the official thermometer had gone up to two below, and the absence of wind was some relief.

The intense cold interfered considerably with all outdoor occupations and delayed all regular and suburban trains from a few minutes to several hours. The effects of the heavy snow had been overcome, but it was difficult to keep up steam and many local trains had to be abandoned on account of disabled engines.

Traffic land and water was in serious trouble. Trans-Atlantic liners arrived looking like spectre ships. Both the East and North rivers were barely navigable, while the Harlem river, for the first time in eight years, was impassable above Macombs dam bridge at 155th street. Ferry boats and tugs were swept out of their courses by the drift ice, and every ounce of power in them was required to reach the shore. The tug which was in the Battery had to turn battering rams to part the ice in their slips.

Malls from the west and east were from six to ten hours late. Snow was not to blame for this so much as the inability of the locomotives to keep steam up under the great outside cold pressure.

The severe weather was the cause of an unusual number of fires. Between 1:30 and 2:30 a. m. thirteen alarms were sent in. All of them were put out.

Thermometers BURN.

Mercury at Orange, Mass., Reached
50 Below.

Boston, Jan. 5.—Reports from all over New England indicated intense cold today. At Salem, Mass., the harbor was frozen over for the first time in fifteen years. From New Hampshire, Keen reported 32 degrees below zero, the lowest in fifteen years while at 45 below. William Paxson was frozen to death in the snow at North Webster last night. For the first time in ten years the eastern and western passages of Narragansett bay are closed by ice.

The ice has choked up the wharves along the water front at Newport, R. I., and soldiers from the fort at Fort Grable on Dutch island to the west ferry over the ice. Thermometers in different sections of Rutland, Vt., registered from 40 to 45 below zero. The Rutland public schools were closed owing to the cold weather.

COLDEST SINCE 1875.

Delaware River Frozen Over For the
First Time in Many Years.

Philadelphia, Jan. 5.—Official figures show this to be the coldest January day this city has experienced since 1875. At 7 o'clock this morning the weather bureau thermometer registered two degrees below zero, while in the suburbs the mercury ranged from four to ten below.

The Delaware river below this city is frozen over from shore to shore for the first time in years, interfering seriously with the movement of shipping. In the mountain districts and coal regions the thermometer ranged from six to twenty-five degrees below zero, and coal mining has been seriously interfered with, many mines being unable to operate.

Twenty-nine Below.

Wilkesbarre, Pa., Jan. 5.—The temperature today is the severest in many years in this section of the state. At Glen Summit the thermometer was 25 below zero; at Mountain Top, 23, while in this city it registered as low as 14 below.

Coal mining is seriously hampered, and while the demand for coal is great, many companies have been unable for a week to make deliveries.

Factories Close Down.

Wilmington, Del., Jan. 5.—The cold wave extends over Delaware with practically no variation. The thermometers ranged from 2 to 8 below zero. In this city many large industrial establishments suffered from bursting pipes, and many were compelled to shut down.

Traffic Delayed.

New Haven, Conn., Jan. 5.—This was the coldest morning in the last five years in Connecticut. From midnight until 5 o'clock this morning the official thermometer registered 6 below. The lowest in the state is at Danbury, 26 degrees below.

Traffic was delayed on account of the difficulty of making steam.

Breaks the Record.

Troy, N. Y., Jan. 5.—In exposed places in the city and suburbs it was 22 below, and in other places 2 below, the coldest in the history of Troy.

Albany Frozen Up.

Albany, N. Y., Jan. 5.—Twenty-five degrees below zero, the lowest temperature in twenty-eight years, was recorded here today.

Mercury Way Down.

Amsterdam, N. Y., Jan. 5.—The average temperature in this city today was 25 and 29 degrees below zero.

Intensely Cold.

Fishkill Landing, N. Y., Jan. 5.—The thermometer here this morning registered 26 below zero.

WOOD CASE PASSED.

Washington, Jan. 5.—In the executive session of the senate the nomination of General Wood came up in the regular order, but was passed on account of the absence of several senators interested.

GORMAN WANTS INFORMATION

President's Message Did Not
Cover the Ground.

SHOULD BE MORE SPECIFIC

RESOLUTIONS INTRODUCED IN
THE SENATE.

Washington, Jan. 5.—Practically the entire session of the senate today was devoted to a speech by Mr. Lodge on the situation on the isthmus of Panama. He discussed the abstract question of the right of the president to recognize the independence of a nation, and concluded that such a prerogative pertains exclusively to the office of the chief executive. Mr. Lodge argued that our intervention in Panama had been only in the interest of peace and contended that the president had not gone a step beyond what the propriety called for.

Mr. Gorman introduced a resolution asking the president to supply the senate information as to the various instances of intervention on the part of the United States in the isthmus of Panama, saying that the information requested would be in the line of Mr. Lodge's speech. He asked for immediate consideration of the resolution, but Mr. Allison objected and consideration was postponed. Following is the resolution:

"Resolved, That the president be requested, if not in his judgment incompatible with the public interest, to inform the senate:

Date Desired.

"1. The date when and the circumstances under which the United States intervened, for the first time and succeeding time, with a military force, in the internal affairs of New Granada or Colombia, under the treaty of 1846, whether such intervention was on the initiative of the United States or by the request of New Granada, or Colombia, or in the consequence of any official representation of either, and also to transmit to the senate copies of letters or notes in the department of state, and of the orders by the navy department, relating to such intervention.

"2. Also to inform the senate whether or not the United States has been asked by New Granada or Colombia for any one of the representatives of either to execute by armed force, either the duties and the neutrality of the isthmus or of the sovereignty of New Granada or Colombia, over the same, and if the United States has been so asked, then the dates and the circumstances thereof, and to send to the senate copies of the letters or notes in each case, conveying the application of the United States thereunder by the United States.

Copies of Orders Wanted.

"3. And also inform the senate in which of the disturbed provinces on the isthmus, referred to by the president in his annual message, the United States has intervened by the employment of military force solely on its own initiative and uninvited by the government owning the isthmus, and also to inform the senate of the circumstances in each case which required such intervention, and transmit copies of the orders issued by the navy department for such purpose.

"4. Also that he will inform the senate of the dates when, and circumstances under which the United States has intervened in the internal affairs of New Granada or Colombia by military force in aid of a revolt or rebellion or disturbance of the peace thereof, or to suppress such revolt, rebellion or disturbance.

"5. And also to inform the senate which words, if any, in the treaty of 1846, authorized the United States, in the opinion of the president to enter by military force and uninvited into the territorial jurisdiction of New Granada or Colombia in order to prevent the interruption or embarrassment of free traffic across the isthmus."

Then at 2:50 p. m. the senate went into executive session, and at 3 o'clock adjourned.

HAY'S MOTION LOST.

Eight Republicans Bolted Their
Party, However.

Washington, Jan. 5.—The privileged resolution proposed by Mr. Hay of Virginia providing for an investigation of certain statements in the Bristol post-office report reflecting on the membership of the house today was referred to the committee on postoffices and postroads, on motion of Mr. Payne of

New York, the majority leader. Eight republicans voted with the minority on Mr. Hay's motion to order the previous question, which was lost, and three republicans voted with the democratic majority against the motion to refer.

The president's message relative to Panama and the canal was read in the house, receiving applause on the republican side.

ESCAPED MURDERER
AGAIN IN CUSTODY

Redding, Cal., Jan. 5.—Edward Hingsworth, who escaped from the Shasta county jail in 1901 with Ben Dorland, and who was supposed to have perished or been killed by the Indians in the lava fields of Modoc county after Dorland was killed in a battle of the fugitives with the officers in Modoc, has been captured in Oregon. Word to that effect reached here this morning from Modoc. Sheriff Street of that county had gone after the prisoner. In the battle in which Dorland was killed, Deputy Sheriff Walker of Modoc also met death, so Hingsworth, if the news is correct, will have to answer for murder. When he escaped from jail here he was being held for trial for attempted assassination of a woman.

STRIKERS WILL BE
HELPED BY THE UNION

Indianapolis, Jan. 5.—At this afternoon's session of the conference between the national executive board of the United Mine Workers and President Mitchell, Vice-President Lewis and Secretary Wilson, it was decided that the striking miners of district 15, commonly known as the Colorado district, and the miners of West Virginia, who are striking for an increase in pay, should be supported by the national organization. The executive officers will decide on the method of support. There are 10,000 miners affected by this decision in the Colorado district and about 1,000 in the West Virginia district.

THE DEATH RECORD.

Count A. J. Moore.

Dublin, Jan. 5.—Count A. J. Moore died today at Moore's fort, Tipperary. Count Moore was born in 1849, and was a former member of parliament. He was created a count and commander of the Order of Gregory by the late Pope Leo XIII.

Samuel Lount Soules.

St. Louis, Jan. 5.—Samuel Lount Soules, one of the last of the pioneers of the Province of Ontario, Canada, and a member of the house of commons of that province, is dead at the residence of his daughter in this city.

Madame Paget.

Berkeley, Cal., Jan. 5.—Madame Emanuel M. Paget, wife of the late F. F. Paget of the University of California, is dead, just two weeks after the death of her husband. She was a native of Paris, aged 59 years. Her will provides that one-third of her estate be handed in trust by the regents of the state university for the Felicien Paget scholarship in French. The late professor's library is given to the regents.

Benton L. Beebe.

Middletown, N. Y., Jan. 5.—Benton Beebe, editor and publisher of the Sign of the Times, a publication of the Baptist church in the United States, died suddenly today of kidney trouble, aged 59 years.

GOLD FROM ABOARD.

New York, Jan. 5.—The National City bank has engaged \$250,000 gold in London for import.

Lazard Freres has engaged \$1,250,000 gold from London.

The International Banking corporation announces an engagement of 260,000 yen (about \$120,000) Japanese gold.

HIS SKULL CRUSHED.

Des Moines, Ia., Jan. 5.—C. L. Linley, supervising architect, fell sixty feet to his death today at the state capitol. Linley was making an inspection of the locality where the flames originated, when the floor gave way, precipitating him to the floor of the chamber of representatives. His skull was crushed.

PORTLAND EXCURSIONS.

RHEUMATISM IN THE SHOULDER

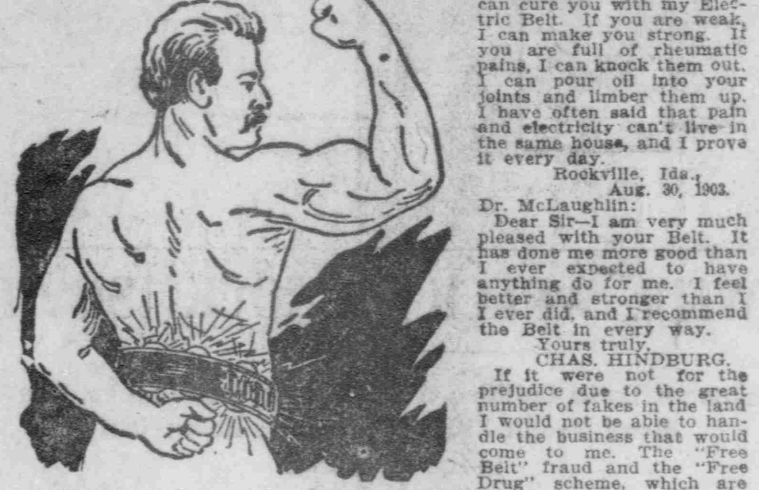

This painful trouble can be relieved and cured by using an Allcock's Porous Plaster. Warm the plaster before applying—if not relieved by bedtime, place a hot water bag against the plaster on the shoulder.

REMEMBER—These plasters are good for all pains and aches. They have been in use 55 years, have been initiated more than any article ever sold, and have made more cures than any other external remedy. Guaranteed not to contain belladonna, opium or any poison whatever.

Stop the Pain with an
Allcock's POROUS PLASTER

MEN, COME TO ME!

not free at all, have made everyone skeptical, but I know that I have a good thing, and I'll hammer away until you know it.

One thing every man ought to know is this: Your body is a machine. It is run by the steam in your blood and nerves. When you begin to break down in any way you are out of steam. That's just what I want to give you back.

Dr. McLaughlin: Dear Sir—Yours of the 3rd of Aug. is at hand and in reply will say that I am very well pleased with your Belt. I have been in this business twenty-two years, and am the biggest man in it today by long odds, and I am growing every day. I give every man all he pays for.

Now wouldn't you rather wear my life-giving appliance while you sleep every night, and feel its glowing warmth pouring into you, and feel yourself taking on a new lease of life with each application, than to clog your intestines up with a lot of nauseous drugs? Surely! Try me.

Mr. James Cuyler, Reno, Nev., writes: "I have used your electric Belt and can truthfully say that it has cured me of what was supposed to be a hopeless case of lame back. I am now in perfect health and the credit is all due to your treatment."

If you will come and see me I'll explain to you. If you can't call, let me send my book, full of the things a man finds inspiring to strength and courage. Free if you send this \$2.

Dr. M. B. McLaughlin, 931 16th St., Denver, Colo.
